

# Brand Redemption Journey Audit

Intern Assignment - SabbPe Gift Vouchers Platform

## ■ Objective

Evaluate the end-to-end redemption journey for all gift voucher brands to identify broken redemption flows or customer friction points. Simulate a real customer journey and document whether the redemption process works as advertised.

## ■ Testing Process

### For Each Brand:

1. Access <https://giftvouchers.sabbpe.com> → Navigate to Brands page
2. Locate brand using **Brand Code** (e.g., STBETHDOOMETERNALIND, EGCGBHME001)
3. Review brand description, category, and redemption instructions on platform
4. Visit the brand's website/app (as specified in instructions)
5. Browse products → Add to cart → Proceed to checkout (stop before payment)
6. Look for coupon/voucher/gift card redemption field (labels: "Apply Coupon", "Gift Card", "Promo Code", etc.)
7. Document whether voucher redemption option exists and is functional
8. Evaluate ease of finding the redemption field and overall customer experience

## ■ Evaluation Criteria

| Status               | Description                                                                                          |
|----------------------|------------------------------------------------------------------------------------------------------|
| ■ WORKING            | Voucher field clearly visible, appears functional, matches instructions, no major friction           |
| ■■ NEEDS IMPROVEMENT | Voucher field exists but hard to find (hidden dropdown), unclear process, minor discrepancies        |
| ■ BROKEN             | No voucher field found, appears non-functional, brand doesn't support vouchers, website inaccessible |

## ■ Documentation - Spreadsheet Columns

| Column           | Description                          | Example                                 |
|------------------|--------------------------------------|-----------------------------------------|
| Brand Code       | Copy from provided list              | EGCGBHME001                             |
| Category         | Gaming, Fashion, E-Commerce, etc.    | Fashion & Lifestyle                     |
| App/Website/Both | Where redemption should happen       | Website                                 |
| Redemption Steps | Summary of SabbPe instructions       | Enter code at checkout                  |
| Voucher Found?   | Y (Yes) or N (No)                    | Y                                       |
| Status           | Working / Needs Improvement / Broken | Needs Improvement                       |
| Issues           | Specific problems found              | Coupon field hidden under dropdown      |
| Suggestions      | Actionable fixes                     | Update instructions to mention dropdown |

## ■ Example Entries

| Brand Code    | Category   | Found? | Status         | Issues                                            | Suggestions                               |
|---------------|------------|--------|----------------|---------------------------------------------------|-------------------------------------------|
| EGCGBHME001   | Fashion    | Y      | ■■ Needs Impr. | Coupon field hidden under "More Options" dropdown | Update instructions; make field prominent |
| STBETHDOOM... | Gaming     | N      | ■ Broken       | Steam game - redemption on Steam platform         | Clarify Steam redemption; add Steam URL   |
| 100FCPOINTS!  | E-Commerce | Y      | ■ Working      | None - clear "Gift Card" field on checkout        | No changes needed                         |

## ■ Deliverables

- 1. Completed Spreadsheet:** All brands audited with status and findings
- 2. Summary Report (1-2 pages):** Total brands, breakdown (%), top 5 issues, top 5 recommendations, urgent brands

## ■ Tips for Success

**Be Thorough:** Test mobile + desktop when 'Both' specified; try different browsers; clear cache if issues occur

**Document Clearly:** Use specific language; note exact error messages; record URLs; be objective

**Think Like Customer:** Would non-tech user find voucher field? Are instructions clear? Match expectations?

**Be Solution-Oriented:** Don't just report problems - suggest fixes; compare with working brands; prioritize UX

## ■ Common Scenarios

**Brand Not Accessible:** Document as 'Unable to Access' with reason (site down, region-restricted)

**Payment Info Required:** Stop before payment; document visible checkout UI elements

**Unclear SabbPe Instructions:** Flag for review; proceed based on industry standards

**Multiple Redemption Options:** Document all (e.g., 'Website OR in-store redemption available')

## ■ Quick Checklist (Per Brand)

- Brand located on SabbPe
- Redemption instructions reviewed
- Brand website/app accessed
- Product added to cart
- Checkout page reached
- Voucher section checked
- Status determined
- Issues documented
- Suggestions provided
- Data entered in spreadsheet
- Quality checked

## ■ Evaluation Metrics

| Criteria        | Weight | What We're Looking For                                                           |
|-----------------|--------|----------------------------------------------------------------------------------|
| Completeness    | 25%    | All brands audited, no missing data fields                                       |
| Accuracy        | 30%    | Correct status classifications, factual observations, precise issue descriptions |
| Detail Quality  | 20%    | Clear, specific documentation with actionable details                            |
| Recommendations | 15%    | Useful, practical suggestions that can be implemented                            |
| Organization    | 10%    | Clean spreadsheet format, well-structured summary report                         |

## ■ Support

**Contact supervisor for:** Test voucher codes, access to paid apps, clarification on brands, SabbPe technical issues, priority guidance

## ■ Key Points to Remember

Focus on **customer perspective** - ease of finding and using voucher redemption

Compare **actual experience vs. SabbPe instructions** - note any discrepancies

Be **specific in issues** - 'Voucher field hidden in collapsed menu' not just 'Hard to find'

Provide **actionable suggestions** - what exactly should be fixed and how

Document **both positive and negative** findings - working brands teach us best practices

Test thoroughly but **efficiently** - you don't need to purchase, just verify redemption option exists

When in doubt, ask - better to **clarify than assume**

**Your work directly improves customer experience and identifies areas needing immediate attention.**

Good luck with your audit! ■
